Our Services

As most of you may already know, Orust Yacht Service (OYS) acquired Najadvarves yacht service operation, including the ship yard production facilities, yacht storage premises, office building, carpentry shop and the marina in Henån.

Reviews

Please visit us during the sailing season, we have about 30 perfectly sheltered moorings, only 3 min walk to the shops in the centre of Henån

Our features and advantage

Najadvarvet's former production facility now function as service and repair hall, where we have access to all possible equipment to perform the most complex servicing and repairs. In the workshop we can accommodate about 20 yachts,, at the same time, for major maintenance and service work and our skilled craftsmen have the best possible conditions for delivering top quality

Team Commitment

has established cooperation agreements with all these companies and sub-contractors, which gives you as our customer the advantage of having just one contact when servicing your yacht.

Our quality of service

In our neighbourhood there is an established network of professional and highly skilled service technicians and companies representing most of the major suppliers of yachting equipment, such as Raymarine, Mastervolt, Seldén, Volvo Penta and Yanmar. In the area there are also companies that work with customized manufacturing of stainless steel parts, spray hood, soft furnishing, etcetera.
